

**We need your help!**

## **MAJOR DINING HALL RENOVATION**

**The Property Committee, chaired by Renton Patterson,  
need your help for this major renovation.**

**With the present Juby Dining Hall in need of structural modification,  
along with the need to accommodate larger Camps,  
a major renovation is in the works.**

**We have architectural plans in hands, so we will be looking for volunteers to work,  
under the direction of a contractor, to de-construct the Juby Dining Hall porch this  
spring. September 2011 will see the remainder of the main Dining Hall roof removed  
(leaving the kitchen intact) ready for re-construction with new roof trusses.  
The former porch area will be included in an enlarged Juby Dining Hall with large river-  
facing picture windows. Work will continue in April 2012 to complete the project.**

**It would be very helpful if individuals could form groups to go to camp for several days  
at a time. This is a big job, so several groups would be ideal. Accommodation will be  
provided, and if we arrange for a volunteer cook, some meals too.  
Hard hats and other safety gear will be mandatory.**

**There will be other small maintenance and improvement items to look after, so even a  
day will help us get the Camp in shape for the summer.**

**Please contact Renton Patterson with questions and as soon as you have some time  
available to help, let him know and a work schedule will be prepared.**
